

Academic Standards & Curriculum

There is great power in harmony and mutual understanding.

What are the PA academic standards?

The academic standards are **benchmark measures that define what students should know and be able to do at specified grade levels**. The standards are state regulations. As such, they must be used as the basis for curriculum and instruction in Pennsylvania's public schools.

What is curriculum?

The term curriculum refers to the lessons and academic content taught in a school or in a specific course or program. An individual teacher's curriculum, for example, would be the specific learning standards, lessons, assignments, and materials used to organize and teach a particular course.
